

# ZKbulls

Finally... it's about time for a 'ZK'bullrun!

# OUR MISSION

Our mission is to build the first 3D marketplace on the ZKsync blockchain, named the Meta gallery. Which enables artists to show and sell their art in a 3D virtual environment.

The Meta gallery allows artists and collectors to safely trade and collect art pieces.

The ZKbulls want to support artists by helping them to reach their audiences, sell their work and above all provide a balanced and healthy art ecosystem.

## Our core principles

- ✓ Allow artists to sell directly to collectors
- ✓ Artists shouldn't be reliant on a centralized organization
- ✓ Allow artists to show their art in the best way possible

# THE ZKBULLS

Zksync has the largest bull fighting arena on the blockchain. Joe, one of the bull caretakers, has worked for over 30 years at the arena.

Day in, and day out Joe looked after the bulls and took care of them. One day Joe decided he can't see any other bull get hurt just to please the inhabitants of Bull city.

So, Joe opened the main gates of the arena... and all the Bulls escaped, storming into Bull city!

# OUR FUTURE

The Zkbulls collection is just the starting point of our long-term vision. With several other NFT collections we are building towards the biggest marketplace on ZKsync!

Zkbulls will transform into a DAO, governed by the Zkbull holders. The DAO will make future decisions over all Zkbull activities and the Meta gallery.

Holding a Zkbull NFT will grant the holder voting right within the DAO, and weekly royalties airdropped as ETH.

# ZKbulls

When the **2D** and **3D** marketplaces are released to the world, ZKbulls NFT holders will receive **royalties** from these marketplaces!

Every NFT sale made here will pay a small amount of taxes. These taxes are saved up as **ETH**, till the end of each week. Every week these taxes are then distributed amongst all ZKbulls NFT holder, and thus bringing **HOLD 2 EARN** to the ZKbulls community!

**HOLD 2 EARN**

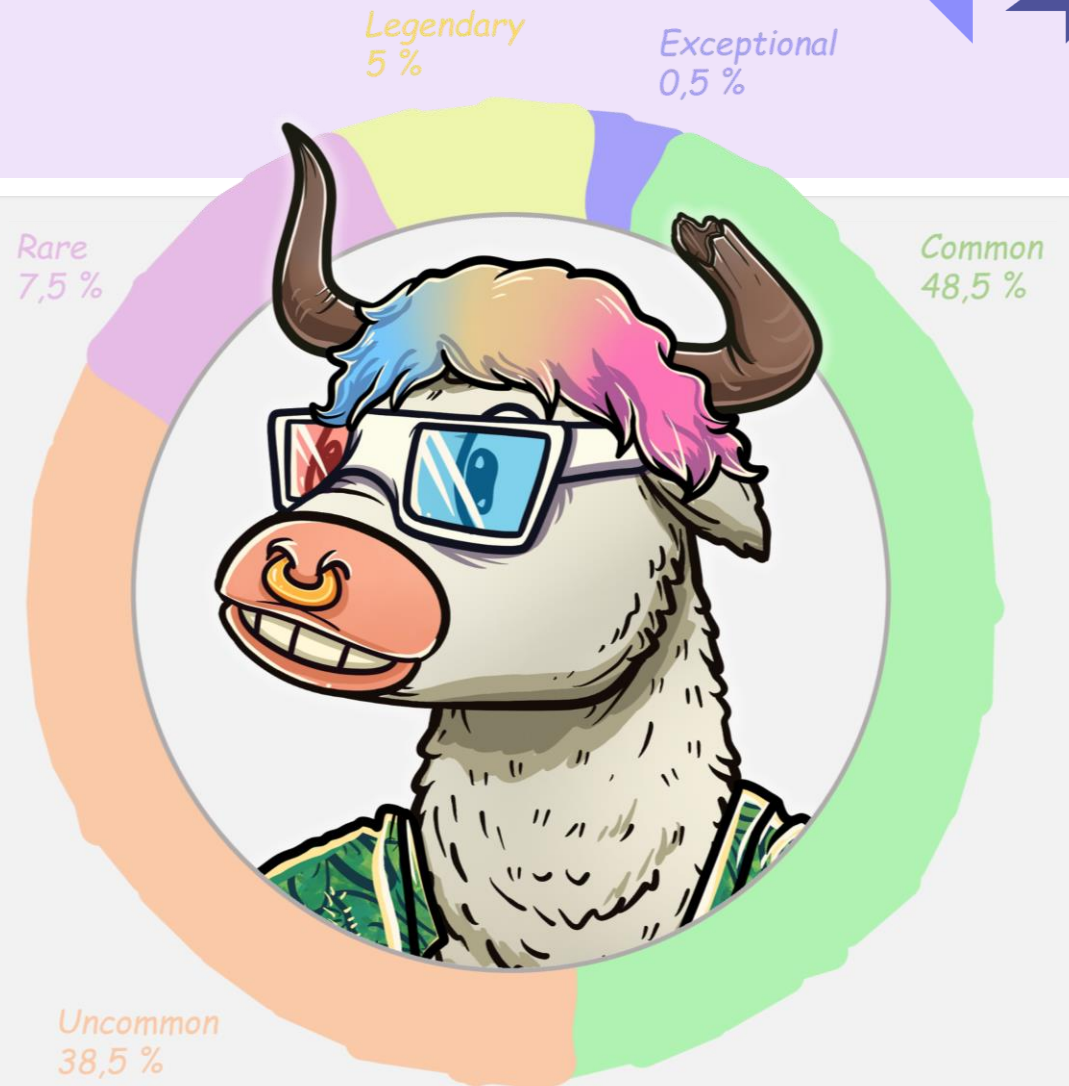

# COLLECTION

Each bull NFT will be unique. However, given rare percentages (**less than 0.5%**) for some of the individual traits, will make some bulls **extremely rare!**

**5000** bulls have escaped from the arena and will be there for you to catch.
